

Statement in Support: SSRI Withdrawal Symptoms  
and the Post Traumatic Stress Disorder  
that resulted from improper  
~~treated~~ treatment

Most doctors don't know about SSRI  
withdrawal symptoms which is dangerous  
the symptoms are Brutal and Violent

After the Paxil Withdrawal Suit in 2001  
The F.D.A. forces the makers of all  
SSRI drug to WARN about this problem  
with every prescription in the  
Drug Package Insert

~~2005 at the Abingdon Jail. I try to explain  
to Dr. O'Leary about SSRI Withdrawals~~

~~Dr. O'Leary even refused to look it up in  
the Physicians Desk Reference on his desk  
It's the Gold Standard of Medicines,  
It has the warning since 2001.~~

~~Dr. O'Leary stops the Ceteris~~

In 2007 when I got to WRS P None of  
doctors, Nurses nor QMHPs knew any  
about the Horribly dangerous problem

★ AND They Refused to learn ★

SSRI

I gave them a 1997 Article from the  
American Pharmacological Ass. called  
'SSRI Withdrawal Syndrome'  
warning about the ~~the~~ Terrible affect  
stopping these medicine has on patients  
Entire Mind

It documents Every one of my  
Horrible Symptoms

I also gave them the Drug Package Insert  
from Forrest Pharmaceuticals the makers  
of my medicine

It warned about this Exact Problem  
Starting in 2001

Dr Thompson, Dr Ashby, QMHP Jones, QMHP Wright  
Nurse Stafford the head Nurse

All Refused to Read them

Nurse Spears didn't have my medicine at pill  
call AND refused to go get it  
see she said "Have fun killing people"

SSRI 2

Dr Thompson <sup>saw</sup> later that ~~because~~ I had become  
Aggressive and Violent

I told him it was from not getting  
my medicine

He had Me thrown in the Hole

I was too psychotic for the Hole

I told QMHP Jones that this was  
caused by not getting my medicine

He put me in the Psych Hold Cell  
and left for the weekend

The C.O.'s Tortured Me Relentlessly

I begged QMHP Jones to look at the  
Physician Desk Reference ~~on the~~ for the  
problem

Instead he sent me back to the Hole

Now I can't go anywhere that the C.O.'s  
target me for Abuse

I shake all over, I'm Horribly Afraid  
I drip sweat, I can't talk  
The C.O.s Love it

SSRI 3

Now I CAN'T go to medical

And Dr Krissnappa is going to  
stop the medicine AND make me a  
Homocidal Psychotic

Because Dr Krissnappa ~~isn't~~  
Refuses to become up to date on  
SSRI Withdrawal Symptoms

## Statement of Support: Reactive Hypoglycemia

When my blood sugars get too low  
I will die

I'm at Serious Risk Right Now because  
even though I'm not guilty for the  
Next 3 weeks, I'm not allowed to supplement  
the incredibly low amount of calories I get

4 times a day Everyday my blood sugars go  
too low for my brain to work

Each time doing permanent damage to  
my brain

I'm having a Horrible time trying  
to send this out.

My words come out in the Wrong Order  
And All it takes to make me completely  
Normal is the Correct Diet

Dr Thompson not sending someone to get  
the correct diet is BRUTAL

I need an order saying I Must have  
food to supplement the Sad diet

Hg 1

I also Need to be shipped to Marion  
Immediately

I + will take a long time for my  
Brain to heal so I can help a lawyer  
address the Highly Unconstitutional Conditions  
here at WRSP

SWORN under penalty of perjury

## Statement in Support for Refly and GI bleed

Dr Thompson has ordered the medicine that keeps Acid from eating ~~and~~ another Hole in my esophagus

The last time he did it, it ate the first hole in my Esophagus

Now despite my Begging that he Not stop the medicine he's doing AGAIN And from inside my cell I can do Nothing

Wave after Wave of stomach acid is EATING into my throat

Blood is constantly coming up

BRUTAL BURNING Pain  
24 hours a day 7 days a week

CAN'T sleep ~~to~~ so doing legal work can't happen

And Dr Thompson doesn't feel he has to help because I'm a Inmate

GEAD 1

Dr Thompson is Wrong

sworn under penalty of perjury

Vince DeMa  
Vince Gilmer M.D. 11.21.10

GEDD2

Memo of Law

Statement of Case - Extreme threats to life

① 11-19 Dr Thompson stopped the medicine that keep Acid from eating more holes in my esophagus  
I'm bring up great amounts of Blood  
if it eats all the way through I  
Will Die from a Upper GI bleed

② 11.29. Dr Kaissnappa Will stop the the Celexia and I will ~~become~~ become A  
Homocidal Psychotic

It was stopped before  
I became psychotic  
I was in the psych holding cell  
where the C.O.s ~~fortuated~~ <sup>fortuated</sup> me becaus  
there was No Medical Staff for 1 Whole Weekend

Now when I'm around Any C.O's  
I UNBEARABLY Afraid, I shake all over  
I CANT talk

The C.O.'s here ENJOY doing that  
to me the ONE in Medical are the Worst

Those two problems are  
SRT With chronic Symptoms and  
Post Traumatic Stress Disorder at its Worst

## Severe Reactive Hypoglycemia

③ When my ~~low~~ blood sugars go too low I will die in my cell

Right now I'm in the Hole AND I'm Not allowed to supplement the Dismally Low amount of Calorie

So I am at Max Risk

Four times a day my blood sugar go so low my Brain CAN'T FUNCTION

I CAN'T Remember Words

I can't organize Anything

I only have 30 minutes after each meal to put together this 1983

I MUST Be transfere to Marion to treat these life threatening Problems

A

Upper GI Bleed

Inoperable Hxam

Chronic GERD to  
Upper GI bleed

~~At for~~ All my life I've had Extremely  
Reflux

Since I've had it all my life And  
Will have it the rest of my life in  
Doctor word the Problem is Chronic

That means for the rest of my life

I MUST TAKE 2 prilosec pills

To keep the Acid from eating my  
esophagus

~~When~~ I first came here I explained  
the problem to Dr Thompson in  
Great Detail

Which he totally ignored

He could have put me on Chronic meds  
which never run out

Insted he only wrote for 6 months

The medicine ran out and I  
had NO CLUE it was coming

and it take 2 months to get it  
prescribed

(A)

Water Works And And ~~which way~~  
~~like~~

B But I have wave after wave of  
stomach acid coming up into my  
throat 27 hours a day

The ~~Pain~~ Never M. nd killing Pain  
Never stopped

It Ate a Hole in My esophagus  
my problem went from stable Chronic  
Reflux

to the Much More dangerous  
Upper GI bleed

~~W~~ because ~~it~~ the Acid can  
eat through and cause me to bleed  
to death

~~N~~ Dr Thompson has ordered  
the medicine which keep the Acid  
from eating anyone Stopped

So Yes that irreparable harm  
And Dr Thompson is making it  
Worse

B the ~~the~~ balance of suffering  
Greatly favor me

my suffering will be death  
or permanent damage to my  
esophagus

the suffering of the defendant  
will be transferring me to Marion  
Hospital which they should have  
Already done Anyhow

⑥ Meats

Dr Thompson feels that he is not required to listen to inmate pain and bleeding and then to actually do something appropriate to take care of the problems

Legally he could be further from the truth

The Federal court has hand down decision after decision calling what Dr Thompson does is Deliberate Indifference  
Also called Cruel and Unusual Punishment

As I write this I'm bring up blood and I'm in unbearable pain due to hemorrhoids that Dr Thompson also refuses to properly treat because he says I can get the medicine from canteen

Dr Thompson's Deliberate Indifference  
MUST Be Stopped

① The Medical Care here at WSP  
is Abusive and UNConstitutional

~~The~~ <sup>The</sup> Nurses <sup>doctor</sup> They think that because this is  
a level 5 prison they don't have  
to deliver medications nor listen  
to inmate complaints and  
meet those expressed needs

And they all learned this from

Dr Thompson

They have been doing this for way to long

It's in the public Interest that  
this be changed Immediately

Severe

Irreparable Harm

Rehy 1

Reactive

Hypoglycemia

(A)

~~And~~ ~~And~~ ~~And~~

I will die in my cell ~~And~~ suffer  
permanent brain damage if not  
given a T.R.O. and ~~and a T.R.O. and a T.R.O.~~  
to get me moved to Marion Hospital to  
get the proper diet for  
Severe Reactive Hypoglycemia

Dr Thompsons said that because I am  
a Level 5 inmate I couldn't have  
the correct diet for reactive hypoglycemia

Not treating this problem is Brutally Cruel

Each day 4 times a day I become Mentally  
Retarded. I can't remember anything  
but especially words. My words come out  
in the wrong order and with great difficulty,  
I can't organize anything  
I can't do anything long term like  
clean myself

It is Absolutely Impossible for me  
to address the Harsh and Unconstitutional  
conditions here ~~at wasp~~

Abusive

DS

(A)

Rehy 2

It is absolutely Impossible for me to address the Blatantly UNCONSTITUTIONAL conditions here at WASP

I can't properly do my 1983 suits Nor my appeals.

Because my brain gets <sup>devastated</sup> ~~ruined~~ too often

I need to be put on the correct diet before I can properly do my 1983 and that can only happen at Marion and it is going to take a court order to force WASP to do the right thing.

Re Hy 2

(B)

Greatly

~~10~~

The Balance of Hardships favors the ~~plaintiff~~ <sup>my</sup>

My potential suffering is <sup>→ Death and</sup> ~~permanent brain~~  
damage

~~The plaintiff's hardship is allowing me  
to supplement their diet with commissary  
until I can be shipped to Marion where  
they can supply me the correct diet~~

The defendants are totally unable to provide me the correct diet here at Wallens Ridge. Me supplementing their diet from commissary and shipping me to Marion where they can provide me the correct diet is something the defendants are obligated to do.

The defendants' hardship amounts to no more than business as usual so my suffering FAR outweighs theirs.

10

(C)

Merits

Legal

One definition of a serious medical problem is on the effects your everyday life.

That couldn't be truer than my Reactive Hypoglycemia

It ~~was~~ effected ~~me~~ every single minute of every single day for several years!

I was <sup>in</sup> the Hole

When I came to work

I passed out from low blood sugar and hit my head.

I explained to Dr Thompson <sup>about</sup> the diet that totally controls the problem.

Dr Thompson said that because I was at a level 5 prison, I couldn't have the diet and I had to stay there.

Legally Dr Thompson is totally wrong.

Dr Thompson knew that diet was so necessary for my brain to work.

~~He also~~ I

When  
I got  
there

✱

21

C  
Again the Fed Courts have already ruled  
that not providing an inmate the proper  
diet is deliberate indifference  
Johnson v Harris 479 Fed Supp 333 335-37  
(S.D. NY 1979)

~~But the fact that in doing so Dr Thompson  
also kept me from being able to~~

- ~~① Address the Uncons~~
- ~~② ~~properly~~ do my work at work~~
- ~~③ properly do my appeals~~

Means he also broke my right to Due Process

So I truly think my case  
will win on merits

C C  
Dr Also knew that there was

No Way Wasp could provide it

therefore it was legally his duty  
to transfere me to Marion Hospital  
to get the proper diet.

He didn't ~~and~~ that's ~~AT~~ to my medical needs  
~~It has cost me many brain cells~~

~~Dr Thompsons O I to~~

~~That's why I will win on merits~~

Public Interest R#

~~the Law~~  
~~Civil Right~~

Correct Medical Care is a Requirement  
for anyone holding an inmate. even  
at Wallens Ridge

It is always in the public interest for  
prison officials to obey the Law like  
~~everyone~~

SSRI Withdrawal Symptoms  
Severe PTSD

A) Inoperable harm

~~SSRI Withdrawal Symptoms~~  
~~and Severe PTSD~~

~~Mr.~~ 11.24.10 Dr Krissnappa is  
going to stop my Celexa because  
I'm too afraid of the C.O.s because

Nurse Spears stopped my medicine  
I become a Violent ~~to~~ Psychotic  
I'm put in the ~~the~~ psych holding cell  
The medical people leave for the weekend  
The C.O.s Torture me the ~~the~~ whole  
weekend

Now the C.O.s smell that I have mental  
problems and seek me out for abuse

The C.O.s at ~~the~~ medical are the worst  
Everytime I go there my Brain can't  
handle the Fear, I CAN'T speak and  
I shake all over

And the Medical C.O.s Love it  
I have stated my problem to  
Dr Krissnappa again and again, begging  
for help And he pretends I've  
said nothing  
Which makes my symptoms worse

(A) Now Dr. KRISHNAPPA is going to stop  
my medicine AND I will Again  
Become a Homocidal Psychotic  
Because Dr. KRISHNAPPA refuses to get  
up to date on SSRI Withdrawals  
AND He totally refuses to treat  
my severe Post Traumatic Stress Disorder  
~~that's~~ making it worse Every day  
that's Irreparable Harm at its  
Worst

⑧ the balance of hardship strongly favors me

Due to the Excessive Nature of the SSRI withdrawal Symptom with me becoming a Violent Psychotic with the possibility of me killing Someone

And me having mind killing fear ~~where~~ I'm shaking ~~until~~ UNCONTROLLABLE every time I see a C.O.

Far out weighs the suffering of the defendants which will consist of transferring me to Marion Hospital something they do ANYHOW

## C. Merits

IN 2001 IN the Paxil Withdrawal Case  
FDA <sup>Peter Breggin M.D. cited</sup> ~~accepted~~ <sup>multiple</sup> double blind placebo controlled studies  
which prove beyond a shadow of a doubt  
that stopping SSRI drugs cause ~~to~~ some  
people to become to become Aggressive  
and violent, hyper irritated

Multiple Double Blind Placebo Controlled studies  
are the gold standard in medicine

He also cited that SSRI Withdrawal symptoms  
were first reported in the A <sup>J</sup>  
p in 1984 and multiple times since

The AJP is the leading journal in that field

The NYT and WA warning about doctors  
not knowing about this problem because  
the symptoms are brutal and so  
devastating to the entire brain

The F.D.A. reviewed Dr Baeggins data  
and forced the makers of All  
SSRI drug to warn about this  
problem with each prescription  
in the Drug package insert in 2001

~~The Call These Severe, and Intolerable  
but the warning is terribly small~~

After 2001 All Physicians Desk Manual <sup>-the Drug Book</sup> carried  
the warning as well

But the Doctors, QMHP, and Nurses  
here at WSP aren't up to date  
on this problem

I gave them the 1997 APAAS  
article  
called SSRI Withdrawal Syndrome  
~~and~~ which documents Every  
one of my Brutal Symptoms

I also gave them the Celexia Day Pack  
Insert ~~to~~ with the warning on, I

But they ~~all~~ refused to read them

and give me proper care

QNT Jones saw the awful symptom that came when

I've ask QNT Jones to look it up in my notes

his PPR

but he ~~refused~~

That's AI

~~The~~ Nurse speak and not giving me  
my medicine again and again was and again  
not AI but Malice

As yes I will cured on merits  
when I'm ~~allowed to~~ ~~contact~~ expert  
my brain gets better

① the relief sought will serve public interest because.

It is certainly not in public's best interest and safety to have a Homocidal Psychotic appear

So it is definitely in the public interest that I get my medicine each day

which Wallens Ridge Refuses to do

I certify the center  
document to be true
